- ORS / electrolyte sachets

- Personal toiletries

Travel Tips for Ladakh

- Layer your clothing – temperatures can change quickly and nights are cold
- Stay hydrated and drink plenty of water
- Acclimatise slowly to high altitude
- Carry cash when travelling to remote villages
- Keep emergency contacts easily accessible

Health Advisory

- Ladakh is a high■altitude region. Proper acclimatisation is essential for a safe and enjoyable journey
- Spend at least 48 hours in Leh before travelling to higher areas
- Diamox (Acetazolamide) 250 mg may be taken twice daily only if advised by a physician
- Avoid strenuous activity during the first two days
- Drink 2–3 litres of water daily
- Avoid alcohol, smoking, and sedatives during the acclimatisation period
- Prefer light meals on the day of arrival

Travel with an Open Heart

At Heritage Himalaya Trails, we encourage travellers to arrive with curiosity, patience, and respect for the mountains and local communities. Come with an open heart and a spirit of discovery to experience the culture, landscapes, and traditions of Ladakh in a meaningful way.
